

- **Full Spectrum Cannabis Distillated**

Full-spectrum extract of winterized Cannabis sativa, free of fats and waxes. Distilled to improve purity without altering the cannabinoid profile and other therapeutic ingredients. Absence of chlorophylls, which leave bitter flavors. Obtained from organic crops, without pesticides or agrochemicals. Plant material processed quickly and hygienically, avoiding microbiological contamination, mycotoxins, or heavy metals. Golden caramel color and pleasant flavor, with no bitter notes. Characteristic odor with no traces of charred elements. Suitable for incorporation into all types of pharmaceutical forms such as oral drops, suppositories, oral spray, creams, and ointments.

Parameters	Specifications
